My Portfolio Website

SUMMARY

Interested in design and integration with effective problem-solving skills. Proficient in Python, Javascript, and Django and Reactjs. Passionate about implementing and launching new projects. Ability to translate business/datas requirements into technical solutions. Looking to start the career as an entry-level software engineer with a reputed firm driven by technology. Exploring more about my interest in hobbies like playing basketball and photo editing .

EXPERIENCE

Web Development

Front End web page developed in reactjs and firebase.

I have experience in frontend development using react js ,other third party react js modules and along with firebase hosting. Some of the sample projects link given below.

[Covid tracker](#) [movie recommendation](#)

Python Django

Django Database

I have been working on django for more than 1 years and integrating the frontend with the django backend.
